## **Weatherby® Adds Three Calibers to the Mark V® TacMark™ & TacMark Elite™**

*Paso Robles, CA* – Long-range tactical shooting is something Weatherby has excelled at for decades, and the Mark V TacMark and TacMark Elite are two of the most tactical rifles Weatherby has ever built. Once available in three hard-hitting magnum calibers (.30-378 Wby Mag, .338 Lapua and .338-378 Wby Mag), Weatherby has added three more popular cartridges to the TacMark lineup for 2017-18. The additional calibers are 6.5-300 Wby Mag, .300 Wby Mag and .300 Win Mag.

Both Mark V TacMark rifles feature a magnum 9-lug action, LXX™ Trigger, a fluted bolt body, integral recoil lug and a 54-degree bolt lift for fast cycling. Their stocks are fully adjustable to fit shooters perfectly, and both come standard with detachable box magazines. The main difference between the two is the TacMark has a fluted, hand-lapped barrel with an Accubrake for recoil suppression, while the TacMark Elite sports a custom Krieger match-grade barrel that's cut rifled and features a muzzle brake with 90-degree lateral gas dispersion ports. The Elite's action is hand-honed to ensure 100% lug contact with the receiver and is equipped with a DD Ross tactical bolt knob.

All Mark V TacMark rifles guarantee• SUB-MOA accuracy (.99" or less 3-shot group at 100 yards when used with Weatherby factory or premium ammunition). The TacMark Elite is Range Certified and comes with a printout from the Oehler Ballistic Imaging System that includes specific load/ballistic data and a computer image of the actual 3-shot group the rifle fired. For more information on these and all fine Weatherby firearms, along with Weatherby's \*accuracy guarantee, visit [www.Weatherby.com](http://www.Weatherby.com).
